

Beautyderm K9

Technical DataSheet | Supplied by Sharon Laboratories

Sorbitan Olivate. Beautyderm K9 by Sharon Laboratories acts as an emulsifier. It is based on olive oil and allows the incorporation of any type of oil, even of high polarity. It exhibits formulating versatility and gelling activity of the watery phase. It offers smoothness, good spreading and UV protection. It makes rich, nutritive W/O creams and lotions for sensitive skin. It homogeneously disperses physical filters. It is water resistant, improves brilliance in make-up products and reduces lip dryness caused by lipsticks. Beautyderm K9 is used in day creams, moisturizer, lotions, lipsticks, sun care and after-sun products.
